

TETERBORO TRAFFIC UP AT END OF 2009

January 21, 2010:

The Teterboro Users Group (TUG) told *Aviation International News* that November, 2009, TEB traffic was up 3.8 percent from a year earlier. It was the first year-over-year increase in more than 12 months.

Total TEB jet operations were up 3.4 percent over November, 2008, to 10,033 for the month. Fuel dispensed was up 6.7 percent to 3.1 million gallons.

Another positive note: 2009 noise violations were down 19% from 2008. *AIN* said TUG also reported that annual noise averages at TEB were down due to the prevalence of quieter jets operating here.
